

**Two Worlds – Northeast and South – ELT #2 Formative: \_\_\_\_\_/11**

**ELT #2: I can compare and contrast the Northeast and the South economically specifically looking at the development of industry.**

1. Which of these best describes the Industrial Revolution?
  - A. a conflict between factory owners in cities
  - B. a shift from handmade products to machine-made products
  - C. a decrease in immigrant labor and an increase in slave labor
  - D. a change from privately owned businesses to government-controlled businesses
  
2. Give an example of a product that once may have been made by hand, but following the Industrial Revolution was not.
  
3. Describe why they built textile mills on rivers?
  
4. Southerners chose to invest their money not in factories, but in \_\_\_\_\_ and \_\_\_\_\_.
  
5. Eli Whitney had hoped his invention would lighten the load of work for slaves...what actually happened, and why?
  
6. Often, \_\_\_\_\_ worked at Cabot Lowell's textile mills, and they work for \_\_\_\_\_ wages.
  
7. White Southern farmers were called \_\_\_\_\_, while owners of large factories in the North were called \_\_\_\_\_. (Hint: These are both vocabulary words ☺)
